PROFILE

Passionate and self-driven software developer with hands-on experience across the full development stack, from mobile and web development to API integration and CI/CD pipelines. Currently a final year Computer Engineering student at Dar es Salaam Institute of Technology, while interning at East Africa Television Limited where I developed and deployed a comprehensive Requisition and Budget Management System handling the company's full financial transactions. I am eager to apply my skills and experience to impactful and innovative projects.

EXPERIENCE

Software Developer Intern

08/2025 – Present

East Africa Television Limited (EATV)

- Developed a Requisition Management System using Laravel Livewire to manage the company's financial transactions.
- Built real-time interfaces for submitting, approving, and monitoring requisitions and budgets.

Full Stack Developer

02/2026 – 08/2026

Databenki Group

- Developed both the web platform and mobile application for a GPS-based fleet tracking system.
- Integrated interactive maps with real-time location tracking and route visualization.
- Built and connected RESTful APIs to enable seamless communication between the mobile app, web platform, and backend systems.

Undergraduate Industrial Practical Trainee

2023 – 2024

Computer Centre Tanzania

- Designed and developed an Odoo-based Loan Management System to manage loan applications, records, approvals, repayments, and related information.
- Designed and developed an Odoo-based Asset Management System for registering, tracking, assigning, and monitoring organizational assets.
- Participated in system testing, troubleshooting, documentation, and user support.

EDUCATION

Bachelor of Engineering in Computer Engineering

2022 – Present

DAR ES SALAAM INSTITUTE OF TECHNOLOGY

Advance Level

2020 – 2022

KILANGALANGA SECONDARY SCHOOL

Ordinary Level

2016 – 2019

HOPE AND JOY SECONDARY SCHOOL

SKILLS

Skills

- Flutter & Mobile Development
- Laravel / Livewire, Django
- REST API Development & Integration
- Odoo ERP Development
- Database Design & Management
- Real-Time Systems & WebSockets
- CI/CD and DevOps
- Linux Server Administration
- Payment Gateway Integration

LANGUAGES

- English
- Swahili

SELECTED PROJECTS

TaREF GPS - Coordinates

- Flutter and web-based GIS solution for collecting coordinates, measuring land, recording points, polygons and routes, managing saved locations, and synchronizing data with backend services.
- Google Play [🔗](#) | Apple Store [🔗](#) | Web Platform [🔗](#)

Requisition and Budget Management System

Laravel Livewire platform for managing requisitions, approval workflows, departmental budgets, payments, audit trails, and financial reporting within an organization.

Odoo Loan Management System

Custom Odoo solution developed to manage loan records, processing workflows, monitoring, and related operational information.

Odoo Asset Management System

Odoo-based system developed to register, categorize, track, and manage organizational assets through structured workflows.
